

City Council Meeting
April 19, 2022

ORDERED, That the Commissioner of Transportation is hereby authorized and directed to give consideration to the

Erection of a "ALL-WAY STOP", West 59th Place and South Hamlin Avenue; All Way Stop, Stopping All Approaches.

SILVANA TABARES
Alderman, 23rd Ward

Good Morning Ann,

The Chicago Department of Transportation (CDOT) has received a traffic study request to evaluate feasibility for all-way stop control at the intersection of 59th Place and Hamlin Avenue. When determining if a stop sign is warranted, CDOT follows federal guidelines established in the Manual on Uniform Traffic Control Devices (MUTCD). In this case, CDOT is not opposed to installing an all-way stop at 59th Place and Hamlin Avenue since both streets are residential streets, and the use is consistent with MUTCD guidance.

If your office would like to proceed with installing all way stop control at this location, please introduce the following ordinance to City Council. Once this ordinance passes City Council, CDOT will make the corresponding sign modifications.

W. 59th Place and S. Hamlin Avenue; All Way Stop Sign, Stopping All Approaches

Thank you,

Kelvin Abraham
Traffic Engineer
