11. Current Use of the Property: The subject property consists of six (6) contiguous lots of record, with approximately 150 feet of frontage on Milwaukee Avenue. The southern one-third of the site is improved with an old (orange-rated) five-story (with basement) warehouse building (commonly known as “The Hollander Storage Building”), while the northern two-thirds of the site is improved with a one-story commercial/industrial building and a surface parking lot. Both of the existing buildings have been vacant and unoccupied for several years.

12. Reason for rezoning the property: The Applicant is seeking a Zoning Map Amendment in order to permit the rehabilitation and expansion of the existing five-story (with basement) orange-rated warehouse/storage building, the programming for which such proposed improvements calls for the adaptive reuse and reactivation of the site and corresponding structure(s) into a newly rendered mixed-use development, that will include divisible commercial/retail spaces and off-street parking at grade level and a diverse mix of residential dwelling units on the upper (2nd through 5th) floors.

13. Describe the proposed use of the property after the rezoning. Indicate the number of dwelling unit number of parking spaces; approximate square footage of any commercial space; and height of the proposed building. (BE SPECIFIC) The Applicant is seeking a Type I Zoning Map Amendment with Administrative Adjustment & Variation relief, pursuant to Section 17-13-0303-D of the Chicago Zoning Ordinance, in order to permit the rehabilitation and expansion of the existing five-story (with basement) orange-rated warehouse/storage building, at the subject site. The programming for the proposed improvements, which includes the construction of a new five-story lateral addition, calls for the adaptive reuse and reactivation of the site and corresponding structure(s) into a newly rendered mixed-use development, that will offer divisible commercial/retail spaces (12,350 square feet) and off-street parking at grade level and a diverse mix of sixty-two (62) residential dwelling units on and between the upper (2nd through 5th) floors, twelve (12) of which such dwelling units will be offered as “affordable”, pursuant to the Chicago Affordable Requirements Ordinance (“ARO”). The subject property is located within 2,640 feet of the entrance to the California/Milwaukee Blue Line (CTA) Station, as such – and pursuant to the current Zoning Ordinance [§17-3-0308(4)], the programming includes off-street parking for nine (9) automobiles, at the rear of the site, accounting for an 85% reduction of the minimum off-street automobile parking ratio for the proposed development, at this Transit Served Location (TSL). The new proposed improvements will be masonry in construction and will measure approximately 73 feet-6 3/8 inches in height, to match and retain physical consistency with the existing five-story building being preserved.
14. If filing a required or an elective Type 1 map amendment pursuant to Section 17-13-0300, applications may include relief available pursuant to Section 17-13-1000 or 17-13-1100; in such instances, City Council approval of a Type-1 application containing said elements shall preclude subsequent review otherwise required pursuant to Sections 17-13-1000 or 17-13-1100, provided that no Type 1 application permits issued may be in violation of Section 17-13-0310.

Please apply the specific code sections the applicant is seeking relief for (BE SPECIFIC) Administrative Adjustment Section(s) 17-13-1000 or Variation Section(s) 17-13-1100. (Note: more detail noted within the Type 1 narrative)

☐ Administrative Adjustment 17-13-1003: The Applicant is seeking an Administrative Adjustment to reduce the minimum off-street automobile parking ratio, for a Transit-Served Location (“TSL”), by approximately 85% (in excess of 50%) - from 62 spaces to 9 spaces, to serve the proposed new mixed-use development, which includes 12,350 square feet of commercial/retail space and a total of sixty-two (62) residential dwelling units. [Section 17-10-0102-B; Section 17-13-1003-EE]

☐ Variation 17-13-1101: When seeking a use involving a Public Place of Amusement (PPA) & Liquor License please provide an acknowledgement document from The Department of Business Affairs and Consumer Protection Office (BACP) indicating the city acknowledges your business license request. The Applicant is seeking a Variation to reduce the minimum rear setback – for floors containing dwelling units, from 30 feet to zero (0 feet), in order to permit the rehabilitation, expansion and conversion of the existing five-story warehouse building, the footprint and envelope of which spans the entire depth of the subject site, into a mixed-use development (with residential uses above the ground floor). [Section 17-3-0405-A and Section 17-13-1101-B].

15. The Affordable Requirements Ordinance (ARO) requires on-site affordable housing units and/or a financial contribution for residential housing projects with ten or more units that receive a zoning change which, among other triggers, increases the allowable floor area, or, for existing Planned Developments, increases the number of units (see attached fact sheet or visit www.cityofchicago.org/ARO for more information).
