ORDINANCE ESTABLISHING
THE CHICAGO FAIR ELECTIONS PROGRAM

WHEREAS, all residents of the City of Chicago should have a meaningful voice in Chicago elections; and

WHEREAS, Chicago candidates rely primarily on large contributions. In 2023, nearly two-thirds of contributions to candidates came from individuals giving one thousand dollars ($1,000) or more or from corporations or PACs. By contrast, thirty-six (36) percent of census block groups in Chicago—primarily in the South and West sides of the City—made no contributions in excess of one-hundred and fifty dollars ($150); and

WHEREAS, Candidate contributions in Chicago elections come disproportionately from Chicago’s wealthiest neighborhoods. In 2023, Chicago zip codes with a median household income greater than seventy-five thousand dollars ($75,000) were responsible for the sixty-six (66) percent of Aldermanic contributions while comprising only thirty-seven (37) percent of Chicago’s population. The twenty-six (26) Chicago zip codes with median household incomes below sixty-five thousand dollars ($65,000) provided approximately a quarter of candidate contributions while comprising more than half of Chicago’s population; and

WHEREAS, the current campaign finance system reduces the opportunity of all Chicagoans to meaningfully participate in the democratic process, particularly among groups who have historically been underrepresented in the democratic process or who lack access to wealth; and

WHEREAS, meaningful participation in financing the campaigns of candidates for elected office in Chicago should not be limited to people and entities with significant wealth; and

WHEREAS, existing state and municipal laws allow candidates to disregard applicable contribution limits and receive unlimited contributions, enhancing the risk and appearance of quid pro quo corruption and further diminishing the ability of ordinary Chicagoans to participate meaningfully in the financing of campaigns; and

WHEREAS, the current campaign finance system discourages many qualified candidates from running for office because of the need to raise substantial sums of money to be competitive and their lack of personal wealth or access to a network of wealthy supporters; and

WHEREAS, the current campaign finance system creates opportunities for apparent and actual quid pro quo corruption by encouraging candidates to take contributions from private interests that are directly affected by governmental actions; and

WHEREAS, the current campaign finance system forces candidates to rely on large contributions from a relatively small group of wealthy donors and special interests, creating heightened risks for quid pro quo corruption and its appearance in city government; and
WHEREAS, the current campaign finance system creates the appearance that elected officials may be more responsive to the wealthy donors and special interests who finance their election campaigns rather than their constituents; and

WHEREAS, candidates’ reliance on large contributions from a small number of deep-pocketed donors advantages incumbents over potential challengers who lack existing networks of wealthy contributors, thereby reinforcing existing barriers to running for office and decreasing the competitiveness of Chicago elections; and

WHEREAS, the current campaign finance system burdens candidates with the rigors of fundraising and thus decreases the time available to carry out their public responsibilities and to hear from constituents who lack the ability to make large contributions; and

WHEREAS, Chicago residents have a right to know who is spending big money to influence their elections and their government, but existing state and municipal laws fail to require meaningful transparency on ads paid for by large political spenders, resulting in inadequate access to information about large spenders trying to influence their votes; and

WHEREAS, the Fair Elections small donor matching system established by this ordinance will enhance participation in the financing of candidates for city office by amplifying small dollar contributions from ordinary Chicagoans with public funds, creating a system where elected officials rely on community support, thereby combatting the reality and appearance of corruption; and

WHEREAS, by enlarging public discussion and participation in the political process, the Fair Elections program will allow for more robust democratic self-governance, including by enabling candidates with substantial community support but who lack access to networks of wealthy donors to run competitive campaigns. The program will thereby encourage candidates from different backgrounds, including those from communities historically underrepresented in the democratic process, to seek public office and result in a pool of candidates more reflective of the people of Chicago; and

WHEREAS, the transparency requirements established by this ordinance will provide Chicago residents with more information about candidates and the outside groups supporting or opposing them, as well as groups supporting or opposing ballot measures, by requiring political committees to identify their top donors on political ads, enabling voters to better evaluate the political messages they receive about candidates and ballot measures; and

WHEREAS, requiring Chicago candidates and contributors to abide by contribution limits, instead of allowing unlimited contributions, and limiting contributions by individuals and entities doing business with the city will reduce opportunities for real and apparent corruption, thereby increasing competition and fostering more robust political participation; now, therefore,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

(g) The Commission shall promulgate rules to specify the timing and method by which a participating candidate shall return contributions that exceed the limits or are made by a prohibited source under this chapter, including the circumstances under which a candidate’s compliance with such rules will result in a determination that the candidate has not materially violated the requirements of this chapter. The rules shall provide that such contributions may be returned to the contributor or to the Commission for deposit in the fund.

SECTION 7. Chapter 2-156 of the Municipal Code of Chicago is hereby amended by inserting a new section 2-156-459 as follows:

2-156-459 Public funds payments.

(a) The Commission shall establish a process for authorizing the City Comptroller to distribute public funds from the fund to participating candidates who meet the requirements for receiving public funds. The Comptroller shall distribute public funds to participating candidates no later than 2 business days after the distributions have been authorized by the Commission.

(b) The Commission shall establish by rule the information and documents that a participating candidate must submit for the Commission to verify qualified contributions and authorize distributions of public funds to the participating candidate. The Commission may not authorize distributions of public funds for which a participating candidate fails to submit the required information and documents. The Commission may only verify qualified contributions if the contributions are itemized as described under Section 10 ILCS 5/9-11 of the Illinois Election Code. If the Commission rejects, in whole or in part, a request by a participating candidate for a distribution of public funds, the Commission shall make its rejection in writing and provide the reasons for rejection. The candidate may request reconsideration and appeal the Commission’s rejection in the same manner as described under Section 2-156-396.
(c) Except as provided in subsection (g), the Commission shall authorize base payments to a candidate certified as a participating candidate as follows:

(1) Within five days of a candidate being certified as a participating candidate, the Commission shall authorize the City Comptroller to distribute 50% of the base payment amount under paragraph (3) to the participating candidate.

(2) Within five days after a participating candidate qualifies for the ballot, the Commission shall authorize the City Comptroller to distribute 50% of the base payment amount under paragraph (3) to the participating candidate.

(3) The base payment amount for each covered office shall be $50,000.

(d) The Commission shall establish a schedule for authorizing disbursements of public matching funds to participating candidates no less frequently than once per month until 8 weeks prior to the election. During the 8 weeks prior to the election, the Commission shall authorize disbursements of public matching funds no less frequent than weekly.

(e) In accordance with the schedule established under subsection (c) and subject to the limits in subsection (f), after a candidate is certified as a participating candidate, the participating candidate shall receive public matching funds for qualified contributions that the participating candidate received in the applicable election cycle before the participating candidate was certified under Section 2-156-458 and qualified contributions received after the candidate was certified in the following amounts:

(1) An amount equal to $12 in public matching funds for each $1 in qualified contributions for the first $25 received in the aggregate per qualified contributor per election cycle.

(2) An amount equal to $9 in public matching funds for each $1 in qualified contributions for amounts in excess of $25 in the aggregate per qualified contributor per election cycle.

(f) A participating candidate may receive no more than $150,000 in public matching funds in an election cycle.

(g) (1) To be eligible to receive the maximum amounts of public funds under subsections (c) and (f), a participating candidate must be opposed by a candidate who either has been certified by the Commission as a participating candidate or has received aggregate contributions or made aggregate expenditures in excess of $10,000 in the election cycle.

(2) A participating candidate who is not opposed as described in paragraph (1) may receive up to 10% of the amount specified in subsection (f) of this section in public matching funds. The participating candidate may receive no more than the following base payment amounts:

(A) A base payment of $5,000 prior to qualifying for the ballot.

(B) A base payment of $5,000 after qualifying for the ballot.
(3) If a participating candidate who is unopposed becomes opposed as described under paragraph (1), the Commission shall authorize the City Comptroller to disburse the following amounts of public funds from the fund to the participating candidate:

(A) Public matching funds for qualified contributions as provided under subsection (e) of this section, after accounting for any public matching funds already provided under paragraph (2) of this subsection.

(B) If the participating candidate has not qualified for the ballot, 50% of the base payment under subsection (c) of this section after accounting for any base payment provided to the participating candidate under subparagraph (A) of paragraph (2).

(C) If the participating candidate has qualified for the ballot, 100% of the base payment under subsection (c) of this section after accounting for any base payments provided to the participating candidate under subparagraphs (A) and (C) of paragraph (2).

(4) If a participating candidate who is opposed becomes unopposed before the participating candidate has qualified for the ballot but after having received the first half of the base payment, the participating candidate may retain unspent public funds in an amount equal to the greater of $25,000 or the amount necessary to repay campaign expenses incurred prior to the participating candidate becoming unopposed. Upon qualifying for the ballot, the participating candidate may not receive the second half of the base payment under subsection (c) of this section and may only receive the base payment amount provided under subparagraph (B) of paragraph (2).

(A) If the participating candidate has unspent public funds of $25,000 or greater on the day the candidate becomes unopposed, the candidate may not receive any additional public matching funds.

(B) If the participating candidate has unspent public funds of less than $25,000 on the day the candidate becomes unopposed, the candidate may receive additional public matching funds up to either the difference between $25,000 and the amount of unspent public funds or 10% the amount specified in subsection (f) of this section, whichever is less.

(5) For the purposes of this subsection, “qualify for the ballot” means the participating candidate’s certificate of nomination or nominating papers have been determined to be in apparent conformity with the requirements of the Illinois Election Code under 10 ILCS 5/10-8.

(h) A participating candidate may use public funds only for the candidate’s direct campaign expenses. Public funds may not be used to pay any of the following expenses:

(1) Payments to a business in which the candidate or a candidate’s immediate family member has a 10% or greater ownership interest.
(2) A penalty or fine.

(3) An amount in excess of fair market value for goods or services received.

(4) Payments for the legal defense of an alleged violation of this chapter.

(5) Payments for a good or service that is for personal use.

(6) Expenses incurred by a participating candidate after the events described under subsection 2-156-458(e).

(7) Any additional expenses as determined by the Commission by rule.

(i) A participating candidate shall return to the Commission for deposit into the fund all remaining public funds the candidate received, after accounting for campaign debts and expenses, no later than six months after any of the following events:

(1) The Commission revokes the participating candidate’s certification.

(2) The participating candidate dies.

(3) The consolidated general election occurs.

(j) In the event that 90% of the existing fund has been distributed, the Commission shall give notice within 24 hours to all participating candidates that only 10% of the fund remains. Thereafter, the Commission shall make no further public funds payments until after election day and it shall only pay requests submitted after notice has been distributed under this subsection proportionally, spread over all participating candidates and requests equally, in a manner established by the Commission by rule.
